Search for your International Week

If you are a member of the administrative staff or faculty at Universidad de León, you are offered the opportunity to internationalize your CV and your experience through an International Week. You can also invite our international colleagues to our International Week which will take place May 4th to 8th, 2020.

@rrij_unileon

Those who have an AMICUS have a treasure

The AMICUS Call was opened for applications all through November. AMICUS is a program created by Ule and with the purpose to allow undergraduate students to enjoy an academic experience for a semester or a whole academic year outside Europe. Students who take advantage of this mobility always consider this opportunity as one of the relevant experiences of their life. Destinations in Asia, Latin America and the USA are among those chosen by our students.

This year, the Vice-Rectorate for International Relations has significantly increased the financing available for the scholarships for this mobility. This has been reflected in an increase of applicants, which amounts to 87 students.

SICUE is 20 years old!

The Exchange System Between University Centres of Spain (SICUE in Spanish) celebrates twenty years of operation with a total of 63.268 student mobilities among 66 institutions associated with CRUE Spanish Universities, 46 public institutions and 20 private institutions. This national mobility program, promoted by CRUE-Student Affairs and CRUE Internationalization and Cooperation, offers students the possibility of carrying out stays in university institutions different from those where they are enrolled, with guarantees of academic recognition and achievement, as well as adaptation to their curriculum profile.

GRUPO TORDESILLAS

The Universidad de León is about to begin collaborating with the Tordesillas Group after the approval received at the "XX Encontro de Reitores del Grupo Tordesillas" organised by the Universidade Federal Fluminense in Niteroi, Rio de Janeiro.

The Tordesillas Group was born with the celebration of the First Meeting of Rectors of Universities of Brazil, Spain and Portugal back in the year 2000.

Aims

-Establish academic, cultural and socioeconomic links among all its members;

- Promote multilateral cooperation activities within the fields of education, science, technology and innovation by encouraging the establishment of research networks and giving place to projects of strategic value, oriented to the problems that affect and influence the progress of the Brazilian Iberian Community.

Other options for Faculty and Administrative Staff

Erasmus KA1 Course: Three Days Course, Athens, January 28th

-Of interest for faculty intending to open projects. Could be financed as an Erasmus+ Staff Mobility for Training. Link

Internationalization at home

LANGUAGE CENTRE ULe.
